# 10 STEPS YOU CAN TAKE TODAY

**Take charge of your health, wellness, and success.  
Here are 10 steps that can move you closer to your goals – today.**

- Take care of yourself. Self-care has no age or timeline for the best time to do it. Don't let a number stop you from getting better.
- Be mindful of the food you eat. Processed foods are manufactured to be addictive. Learn to control your portions, or better yet, transition to a healthy lifestyle.
- Educate yourself about food. There is a lot of misinformation about food on the Internet. Make sure to only listen to experts and read reliable sources for guaranteed results.
- Follow a healthy diet. Your body is only responding to what you eat. Don't wait until it becomes sick and unhealthy. The sooner you start eating clean, the better.
- Limit using oils in food. Oils become damaging once cooked over their smoking point. They are also filled with calories which are hard to track when added to food.
- Don't rush into diets. You become prone to relapse when you transition too quickly. Instead, start with small steps, then gradually take bigger ones over time.
- Get fats from whole foods. You don't have to entirely remove fat from your diet. Sourcing it from healthy options, like avocados and tahini, is a great place to start.
- Avoid using plastics when cooking. Plastic particles can get into the food when containers are heated or cooked. Instead, use high-quality glass or stainless steel for safety.
- Love yourself. By accepting your body, you become more successful. You're supportive of your choices and can actively choose to go on a healthier path.
