In this presentation, you will discover how to awaken the goddess part of you without giving up on who you are. You will discover how to tap into a freer, happier, softer, sexier and truly confident you – from the inside out.

As we women use more masculine energy and step into more masculine roles, we can become "tougher," "independent," and even "intimidating" and develop what I call a Masculine Shield.

Get The Love That You Want

A 75-year-old (and still ongoing) Harvard study discovered that the secret to true happiness is good relationships and, most of all, the quality of one's intimate relationships.

Many single women want to have a great relationship and say that they are ready for love. But many still have blocks and misperceptions that are blocking them from finding their true love.

This presentation will help you discover what is keeping you from attracting a great relationship and what some of the keys to opening the door to true love are.

Manifest Your Dreams with The Power of Your Subconscious Mind

Everything that happens to you is the effect of your thoughts. What's amazing is that 95% of your brain activity occurs in the subconscious. That's right; your conscious mind is only comprised of 5%!

Now, imagine what you can do when you can harness your brain's powers. Mental strength is the root of all strengths. If you can think it, you can most definitely do it.

In this presentation, you will experience hypnosis, NLP, and somatic techniques that will help you transform your life with newfound freedom, ease, and flow.

QUESTIONS TO ASK

**You can ask me anything during our interview together!
But if you need a guide, here are some suggestions
for questions:**

- You can ask about my life story and how it made me who I am today.
- What are masculine and feminine energies, and why do we need both?
- How does working with these energies affect your work and your relationships?
- How do we connect with self-acceptance and self-love?
- What are the female archetypes/aspects you work with?
- How do we work with those archetypes and know which one is more related to us?
- How does one awaken their inner goddess, and what is she?
- How do I connect with that higher version of myself?
- What is hypnosis, and how do you use it for transformation in your work?
- How will integrating all of these with Orion's Method™ will change one's life?
